SELF-SERVE PRODUCTS

Formula 1155

A High-pH liquid presoak that works to loosen the bond that forms at the vehicle surface. Quickly cuts through road film allowing easy cleaning. Use as a presoak and/or high pressure soap

Dilute 1:96 – 1:120

Formula 331-T

This tire and wheel cleaner not only cleans great it gives great visual appeal. A fast acting product that will impress your customers with rich green foam.

Dilute 1:8 – 1:36

Formula 521-S

The industry standard for liquid body cleansers. With a long and proven track record, Formula 521-S offers the self serve operator a concentrated product for foam brush that produces high foam with excellent lubricating properties. Cleans deep down without the use of harsh detergents or alkalis. Available in colors.

Dilute 1:96 – 1:120

Formula 3521

This is a super concentrate version of Formula 521-S. One 5 gallon pail makes 30 gallons of car wash concentrate, which is further diluted. Formula 3521 produces the same rich foam and lubrication. Available in colors.

Dilute 1:64 – 1:96

Formula 389

Clear coat protectant that also provides a great rinse aid and shine. This is an economical choice for your customers to enhance the vehicles finish.

Dilute 1:200 – 1:500
