TOUCHLESS PRODUCTS

Formula 1160

A super concentrated Hi-pH wash that provides great foam while it breaks down the dirt and road film. Use in all stages in cleaning including undercarriage, presoak, tire-wheel, & wash

Dilute 1:96 - 1:320

Formula 1180

A Lo-pH enhanced wash for that extra cleaning cycle. Provides great foam and deep cleaning. Formula 1180 unique chemistry allows for worry free wax application.

Dilute 1:120 - 1:320

Formula 471

Provides a glistening shine. This is not a colored soap. Our unique Formula 471 is not to be matched in the industry. Generating a thick creamy foam for your customers appeal operators will see quick rinse and reduction in dry time. For additional visual appeal use all three colors: Blue, Yellow & Deep Pink.

Dilute 1:240 - 1:500

Formula 891

Highly concentrated, high quality drying agent that ensures maximum water removal while providing a visible glossy appearance.

Dilute 1:500 - 1:1000

Formula 389

Clear coat protectant that also provides a great rinse aid and shine. This is an economical choice for your customers to enhance the vehicles finish.

Dilute 1:200 - 1:500
