Trusted since 1938

## TUNNEL PRODUCTS

### Formula 1155

A Hi-pH liquid presoak that works to loosen the bond that forms at the vehicle surface. Quickly cuts through road film allowing easy cleaning.

**Dilute 1:96 – 1:120**

### Formula 071-T

A Hi-pH tire cleaner ideal to use with Hi-pH Presoak. This is a tire and wheel cleaner that gets the brake dust out. Foam gives a high visual appeal to your customer. Safe on all types of wheels and won't harm finishes that are over sprayed.

**Dilute 1:8 – 1:36**

### Formula 081-S

A Lo-pH high speed wash that cleans deep and neutralizes Hi-pH presoak. Provides lubricity to brushes and straps along with copious amounts of foam. Formula 081-S unique chemistry allows for worry free wax application.

**Dilute 1:120 - 1:240**

### Formula 471

Provides a glistening shine. This is not a colored soap. Our unique Formula 471 is not to be matched in the industry. Generating a thick creamy foam for your customers appeal operators will see quick rinse and reduction in dry time. For additional visual appeal use all three colors: Blue, Yellow & Deep Pink.

**Dilute 1:240 – 1:500**

### Formula 891

Highly concentrated, high quality drying agent that ensures maximum water removal while providing a visible glossy appearance.

**Dilute 1:500 – 1:1000**

### Formula 389

Clear coat protectant that also provides a great rinse aid and shine. This is an economical choice for your coat customers to enhance the vehicles finish.

**Dilute 1:200 – 1:500**
